

Memorandum

Date: April 15, 1997

To: Sacramento Technical Team

From: Kate Hansel and Cindy Darling

Subject: Sacramento Technical Team Meeting Report

Enclosed is the preliminary draft report from our meeting in Redding last month. We would appreciate your review and comment. We will begin using this information April 18 so we would appreciate hearing if there are any "red-flag" comments by then. Comments on the report should be submitted by April 30. It would help us if you provide edits directly in the text of the report or some similar method to suggest editorial changes. Please provide any red-flag comments directly to us at CALFED (Fax # (916) 654-9780) and any detailed edits to Scott Wilcox at EA Engineering, Science and Technology, 3841 North Freeway Boulevard, Suite 145, Sacramento, CA 95834.

We are working towards a package to solicit applications for funding to be released in mid-May with a decision by August. If you know of anyone who is interested in applying, they can get a copy of the package in mid-May which will describe the types of actions we are looking to fund, the application format, the criteria and process that will be used to evaluate applications, and the steps they need to follow to submit the applications. To ensure they are on the mailing list, they should send a brief letter to the Restoration Coordination Program, CALFED at 1416 Ninth Street, Suite 1155, Sacramento, CA 95814 asking to be put on the Category III mailing list.

We appreciate your continued assistance, especially given the tight time frame we are working under. If you have any questions, please contact Kate Hansel at (916) 653-1103 or Cindy Darling at (916) 653-5950.
